

## Expanding Your Flight Envelope-Spins

Nowadays only CFIs are required to demonstrate spins prior to getting their rating. At one time every airplane pilot received instruction in this maneuver. Shouldn't You ? We will thoroughly dissect the topic of spins: What is a spin; flight into spins; how not to spin; video views of a spin from inside and outside the airplane; spin recovery methods; spins for fun and competition. Don't let your first spin be your last! The speaker, Wes Liu, is an International Aerobatic Club (IAC) Safety Coach, aerobatic competitor, and National Aerobatic Judge. Join us at 6:00 PM for a cookout sponsored by Fitchburg Pilots Association. Click the link below and register TODAY.

**Directions:** Take the first right after entering the airport, then follow the road through the gate to the EAA Chapter Hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
